b. Noted that one of our employees had requested permis-  
sion to marry [REDACTED] who is not a  
US citizen, having been in this country only since 1953. Gen.  
Cabell said Col. Edwards had some concern about this case since  
the young lady in question had escaped from Poland and we had  
not yet been able to determine the full circumstances surrounding  
the facts as to how she made her way into Italy before coming to  
the United States.

report, and issued weekly. This, Mr. Amory said, was based on the fact that recently a number of these publications merely indicated there was nothing to report. The Director agreed but stated that he wanted to first clear this with the IAC.

b. Noted a State cable from London respecting the chartered Indian aircraft which crashed while transporting ChiCom delegates to the Bandung Conference, and said in comparing this message with previous information on this subject it was the first time we could pinpoint a time lag by the ChiComs in reporting that this incident was due to sabotage. The Director, after being assured CIA was keeping State informed on all aspects of this case, asked Mr. Roosevelt to bring the above to the attention of the appropriate officials in that Department.
